SUMMARY OF QUALIFICATIONS

- Compassionate and driven future physician with a strong foundation in leadership, clinical service, and advocacy for underserved populations.
- Proven ability to lead and organize impactful community outreach programs, educational workshops, and campus-wide initiatives that foster diversity, equity, and inclusion in medicine.
- Strong interpersonal and communication skills; experienced in mentoring peers, presenting to large audiences, and engaging effectively with interdisciplinary teams.
- Collaborative team player with a record of building sustainable partnerships with faculty, healthcare professionals, and community organizations.
- Demonstrated academic excellence with a commitment to continuous learning, professional growth, and evidence-based care.
- Bilingual: Fluent in English and Yoruba, with cultural competency to connect with patients from diverse backgrounds.

EDUCATION

Michigan State University College of Osteopathic Medicine, East Lansing, MI
Doctor of Osteopathic Medicine. July 2024-Present

Concordia University Texas, Austin, TX
Bachelor of Science, Biology. Degree Earned, April 2023

- GPA of 4.0
- Dean's List, 2020 – 2023 (seven semesters)

ACTIVITIES AND VOLUNTEER EXPERIENCE

Student National Medical Association (SNMA) Chapter President, January 2024- Present

- Lead advocacy efforts for Black medical students, organizing events to foster inclusivity and community engagement within MSUCOM.
- Coordinate initiatives like "Caffeinate and Advocate," "Juneteenth Paint and Sip", and "Miles for Fibroids" to raise awareness of healthcare disparities and support underserved communities.
- Work with the Pipeline Mentoring Institute (PMI) to mentor underrepresented students in medicine, offering guidance on academic success and career development in healthcare.

Student National Medical Association (SNMA) Assistant Regional Director & Osteopathic Chair, March 2025 – Present

- Represent Region V (Michigan, Ohio, Indiana) at the national level, coordinating initiatives that support underrepresented medical students across multiple institutions.
- Serve as the national liaison for osteopathic medical student engagement, promoting DO visibility and leadership within SNMA and across the broader medical community.

Spartan Street Medicine Volunteer, September 2024 – Present

- Provide direct medical care to unhoused individuals in Lansing, collaborating with healthcare professionals to address immediate health needs in underserved populations.
- Engage in outreach services, delivering health assessments and promoting public health education.

Keep Lansing Warm Founder, January 2025 - Present

- Founded an outreach organization that focuses on distributing cold-weather gear to individuals in need, coordinating logistics, volunteer participation, and fundraising efforts.
- Managed resources to provide essential items like blankets, hand warmers, coats, hygiene items, and gloves to individuals experiencing homelessness, funded independently.

Anesthesiology Interest Group (AIG), Member, September 2024 – Present

- Participated in the "Central Line" event, learning and demonstrating central line placement and management techniques.
- Engage in group activities to deepen knowledge and understanding of anesthesiology as a career path.

American Society of Anesthesiologists (ASA), Student Member, August 2024 – Present

- Active member of the ASA, with a focus on expanding knowledge in perioperative care, pain management, and patient safety through national resources and events.

Community Integrated Medicine (CIM), Member, September 2024 – Present

- Educated high school students on clinical skills by leading hands-on workshops, promoting the importance of healthcare careers.

American College of Osteopathic Surgeons (ACOS), Member, September 2024 – Present

- Participated in the "Stop the Bleed" and Narcan training sessions.
- Stop the Bleed Certified Instructor

Science Club President, Concordia University Texas, August 2021 – May 2023

- Led and organized science club activities, promoting engagement and enthusiasm among members.
- Fostered a collaborative and inclusive environment, encouraging active participation and idea-sharing.
- Developed and implemented successful initiatives, such as workshops and guest speaker events, to enhance members' scientific knowledge.
- Effectively managed club resources, budgets, and logistics, ensuring smooth operations and successful events.

Orientation Leader, Concordia University Texas, June 2021 – September 2022

- Planned and executed orientation events, facilitating smooth transitions for incoming students.
- Provided mentorship and support to new students, helping them adjust to college life.

RESEARCH EXPERIENCE

Assessing the Influence of Exercise Timing on Blood Pressure in Postmenopausal Women, MSUCOM, February 2025 – Present

- Investigating the impact of exercise timing (morning vs. evening workouts) on blood pressure regulation in postmenopausal women.

- Conducting treadmill bouts and handgrip measurements over a period of 6 weeks for both morning and evening workouts, with a two-month break in between.
- Analyzing changes in blood pressure and cardiovascular function to determine optimal exercise timing for managing hypertension in postmenopausal women

Morning Person or Night Owl? How Chronotype Shapes Perceived Effort- April 2026

- Poster presentation at the Student National Medical Association Annual Medical Education Conference

International Perspectives on Low Back Pain: Insights from People with Lived Experience in Australia and the United States- May 2026

- Abstract submission for International Society for the Study of the Lumbar Spine and the South African Spine Society conference

Using Fuzzy Cognitive Mapping to Understand the Perspective of Patients with Low Back Pain, MSUCOM, February 2025 – Present

- Researching how patients' perceptions of low back pain change after receiving Osteopathic Manipulative Medicine (OMM) treatment.
- Conducting two separate sessions, spaced three months apart, where participants complete surveys and virtual interviews about their thoughts on low back pain.
- Aiming to better understand the effects of OMM on patients' attitudes toward chronic low back pain and its treatment.

Effects of Increased CO₂ Concentration on the Physiology, Morphology, and Behavior of *Chlorella Vulgaris* and Their Predators, *Daphnia Magna* and *Daphnia Pulex*, Concordia University Texas, September 2022 – May 2023

- Studied the effects of elevated CO₂ levels on the physiology and behavior of freshwater organisms, including the algae *Chlorella vulgaris* and its predators, *Daphnia magna* and *Daphnia pulex*.
- Conducted experimental setups to assess changes in organism morphology, reproductive success, and behavior under different environmental conditions.
- Contributed to the understanding of how climate change (specifically increased CO₂) may impact freshwater ecosystems and the organisms within them.

WORK EXPERIENCE

- **Genview Diagnosis**
Clinical Laboratory Technologist, April 2023 – August 2024
 - Performed diagnostic testing including hormone assays, enzyme measurements, and infectious disease screenings.
 - Maintained lab quality standards and ensured accurate results through proper inventory and reagent management.
 - Collaborated with healthcare providers to interpret results and support clinical decision-making.
- **Concordia University Texas, Austin, TX**
Teacher's Assistant, Microbiology, January 2022 – May 2023
 - Supported faculty in managing lab sessions, answering student questions, and reinforcing key microbiological concepts.
 - Provided individualized academic support to enhance student understanding and performance.

Laboratory Assistant Manager, October 2021 – May 2023

- Managed lab inventory and trained new assistants to maintain operational efficiency and safety compliance.
- Supported students and faculty with experimental setups and troubleshooting.

Residential Life Assistant, Aug 2022 – May 2023

- Organized educational and social programs to build community and support student well-being.
- Mediated conflicts and collaborated with staff to implement corrective actions for behavioral concerns.
- Maintained regular communication with residents and facility personnel to address student needs and ensure a safe living environment.

Student Activities Leader, Student Clubs & Organizations, Apr 2021 – Apr 2022

- Helped establish five new student clubs by collaborating with students, faculty, and campus departments.
- Coordinated campus-wide events and created a centralized communication system for 30+ club officers.
- Promoted student engagement through interdepartmental collaboration and innovative programming.

Tutor, School of Natural & Applied Sciences, Sept 2021 – May 2023

- Tutored 40+ students in biology and chemistry, with a 100% pass rate and 90% earning at least a B.
- Adapted teaching strategies to individual learning styles and provided personalized academic support.
- Maintained top performance ratings and built strong rapport with students, parents, and faculty.

AWARDS

- National Osteopathic organization of the year (SNMA), Michigan State University College of Osteopathic Medicine, 2026
- Student Leader of the year, Michigan State University College of Osteopathic Medicine, 2025
- Organization of the year (SNMA), Michigan State University College of Osteopathic Medicine, 2025
- Outstanding Science Student of the year, Concordia University Texas. 2023
- Student Leader of the year, Concordia University Texas. 2022
- Best Overall Student, NESAM International School. 2019
- Valedictorian. NESAM International School Oyo, Nigeria (2019)
- Best Joint Admissions and Matriculation Board result. NESAM School (2019)
- Best in Mathematics. NESAM School (2019)
- Best in Science. NESAM School (2019)
